

Minutes, Music City Missile Club meeting, 18 February 2021

Meeting was called to order at 7:09 pm.

Members present were Allen Hall, Peter Tarle, Henry Coffey, Terry McCreary

Allen made a motion to retain all current officers for another year, as there were zero other candidates. Seconded and passed unanimously.

Roundtable discussion.

[Although no action was taken on the following items, it was suggested that they should be included for possible further discussion and motions—TWM]

A launch sale/yard sale was suggested as a means to: make money; attract flyers to the field; lower our inventory. MCMC members would be given first choice on items for sale. We should look up prices of the items we have and offer a discount from list price.

Peter described a rental arrangement for chutes, nose cones, motor hardware, etc. that might attract flyers, students in particular. He will examine this in detail and prepare a proposal of logistics.

Allen suggested a launch binder and contact list with information that might be needed, to be kept at the launch site: maps, phone numbers of firms that could retrieve rockets, setup launch system and other items needed for a launch, etc.

Peter pointed out that October Sky is outreach, and we need to do more outreach.

Meeting adjourned at 8:16 pm.
